How to do an APA Reference page

Start your References on a new separate page. References are always listed in **alphabetical** order, are **double spaced**, and have a **hanging indentation**. Indent after 1st line (one half inch). Use Times New Roman size 12 font. **If there is no author,** the reference citation starts with the **first word** of the **article title.** Author names are inverted (last name first and then only initials of author(s) first name and/or middle name).

Capitalize the major words in a journal title, but **capitalize only the first letter of the first word of an article title (and the first letter of the first word after the colon in a 2 part title**, and proper nouns, in works that are not journals – such as books, articles, etc.

Citation for a book
Author. (Date of publication). *Italicized title.* Place of publication: Publishing company.
